

BodyDetox24

Short Product Characteristic

BodyDetox24 is the first product that effectively cleanses the body within 24 hours. The beneficial effect of the detox lasts for several months and the next treatment is usually carried out after 3 months.

BodyDetox24 provides 12 natural active ingredients that are a source of many substances, vitamins and minerals essential for liver health and function and effective detox. Some of the ingredients (magnesium sulfate, aloe vera leaves, xylitol) stimulate peristalsis of the digestive tract and produce a mild laxative effect, helping to remove accumulated toxins through the digestive tract and cleanse the intestines. BodyDetox24 treatment can also be a good start to a weight loss program.

A pilot study evaluating the effectiveness of the BodyDetox24 cleansing treatment showed that it was well tolerated by all 56 study participants, both in self-assessment and in the biochemical blood tests conducted. Those with baseline elevated levels of liver enzymes and creatinine showed a trend toward normalization. After BodyDetox24 treatment, the majority of subjects showed a marked subjective improvement in their well-being: (i) a reduction in feelings of fatigue, (ii) a reduction in feelings of lack/low energy (iii) an improvement in sleep quality. These changes were observed very quickly, as soon as 3 days after BodyDetox24 treatment.
